

MAHENDRA BHALSING

Java Backend Developer | Spring Boot | Microservices | Banking & Fintech

+91 8668626568 | mahendrabhalsing777@gmail.com | linkedin.com/in/mahendra-bhalsing | Ahmednagar, Maharashtra

PROFESSIONAL SUMMARY

Java Backend Developer with 2+ years of experience building scalable enterprise applications in the Banking & Fintech domain. Specialized in developing end-to-end backend platforms for Corporate Lending Systems using Java, Spring Boot, and Microservices architecture. Hands-on expertise in Liquibase database migrations, Quartz Scheduler for job automation, RESTful API design, and integration with financial databases (Loan IQ). Proven ability to deliver production-grade, secure, and maintainable code in Agile teams.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), SQL, JavaScript

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Security, Hibernate, JUnit, Mockito

Database & Migration: MySQL, Oracle, SQL, Liquibase (schema versioning & migrations)

Scheduling & Messaging: Quartz Scheduler (job automation & task scheduling)

Microservices & API: RESTful APIs, API Gateway, Microservices Architecture, JWT

Frontend: React.js, JavaScript, HTML, CSS

DevOps & Tools: Docker, Git, Jira, SLF4J/Log4j, Logback

Concepts: OOP, Multithreading, Data Structures, Agile/Scrum

PROFESSIONAL EXPERIENCE

Associate Technical Consultant – Java Backend Developer | Finexcore (Banking Domain) *Mar 2024 – Present*

FCLS – Finexcore Corporate Lending Solutions (Enterprise Loan Origination System)

- Contributed to building the FCLS platform from the ground up — an enterprise-grade Loan Origination System managing the full corporate lending lifecycle including loan creation, approval workflows, disbursement, and repayment tracking
- Spring Boot** Designed and developed RESTful APIs using
- Designed and developed RESTful APIs using **Spring Boot** for loan processing, customer data management, and financial transaction handling
- Managed **database schema versioning and migrations using Liquibase**, ensuring consistent schema changes across environments (dev, UAT, production)
- Implemented **Quartz Scheduler** for automated backend jobs including loan due-date notifications, interest calculations, and scheduled financial reports
- Integrated backend services with **Loan IQ database** to enable secure, reliable financial data transactions
- Optimized complex SQL queries on Oracle/MySQL databases, reducing query execution time and improving overall application throughput
- Implemented enterprise-level exception handling and structured logging using Logback/SLF4J for production monitoring and debugging
- Applied Spring Security principles to ensure secure API access, data integrity, and role-based authorization within the lending platform
- Collaborated cross-functionally in Agile/Scrum sprints — participated in sprint planning, code reviews, unit testing (JUnit/Mockito), and deployment cycles

PROJECT EXPERIENCE

Pharma Assistant System | Personal Project | Microservices Architecture 2023 – 2024

- Architected a full microservices-based application using Spring Boot with independent services for user management, medicine inventory, and order processing
- Implemented API Gateway for centralized request routing, load balancing, and cross-cutting concerns
- Secured inter-service communication using Spring Security with JWT-based authentication and authorization
- Containerized all services using Docker for consistent deployment across environments
- Added distributed logging across all microservices for unified monitoring and debugging

EDUCATION

Master of Science – Computer Science 2024

Savitribai Phule Pune University

Bachelor of Science – Computer Science 2022

Savitribai Phule Pune University

KEY COMPETENCIES

Corporate Lending Systems • Loan Origination Systems (LOS) • Loan IQ Integration • Liquibase Migrations • Quartz Scheduler • Spring Boot • Microservices • RESTful API Development • Java Backend Development • Database Optimization • Spring Security • JWT • Docker • Agile/Scrum • API Gateway • JUnit • Mockito • Banking Domain • Fintech
